# 臺灣莎士比亞資料庫

## Taiwan Shakespeare Database

- <http://shakespeare.digital.ntu.edu.tw/shakespeare/browse.php>
- 由臺大莎士比亞論壇與數位人文中心建構，為**免費**公開資源，將臺灣莎士比亞戲劇製作數位典藏，提供中英文介面，收錄47部劇作
- 有雙語字幕的演出錄影，也搜集製作背景、訪問、文宣、設計圖、照片、新聞報導、劇評與論文等資料

語言：閩南語

劇種：歌仔戲

錄影年份：2004

版權：當代傳奇劇場

## 羅密歐與茱麗葉

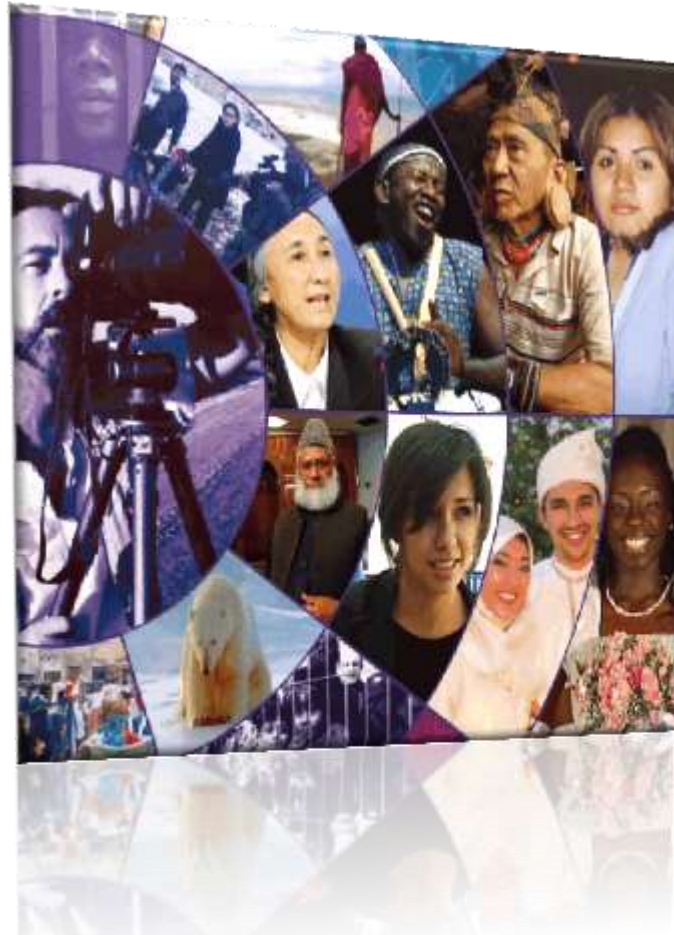

相關檔案 簡介：錄影 (1)；製作背景 (6)；節目冊 (1)；照片 (1)；文宣 (1)；新聞 (5)；文章 (3)；小傳 (1)

本齣獨角戲以「樓台會」一場為中心，兩位主角都由黃香蓮扮演，在舞台上的屏幕後快速換裝。表演充滿隨性的風格，混搭古典詩詞與口語、擬維多利亞時期的服裝與戲曲的肢體動作。雖然劇情是悲劇，但這樣奇特的組合卻造成意外的喜劇效果。

**Dr. Martin Luther King** The fact is that schools, particularly in the north, are more segregated today than they were in 1954 when the Supreme Court rendered it's decision outlawing segregation. These are the hard facts. Now try to solve these problems, we've gotta rise up, we've gotta organize, we've gotta mobilize and we've go to work to solve these problems.

MARCH ON WASHINGTON

**HERMAN FERGUSON** Republic of New Africa well, it was a very controlled exercise. We were told what time to come into town, where we could march, where we could not march, the kinds of signs that we could carry, the speakers were told what to say. When you say 'the march on Washington', you...you get the...the perception that people are coming there angry, or they're gonna do something. It was a picnic. The final thing was that we heard Dr. King 's 'I Have a Dream' speech...everybody was mostly clapping and so on. I felt quite sad as I looked at the people because it was an empty dream to me.

**wes Swearingen** Hoover had...well, if you wanna call it an enemy list , that head list; but it's difficult to say what Nixon's men had. They pulled Watergate, so I guess they could do just about anything.

**Mark Holder** The Black Panther Party was looked at as the number one threat to the internal security of the United States of America . These are word-by-word, verbatim quotes from J. Edgar Hoover .

**Bobby Seal** The year of '69 , every branch and the office of the Black Panther Party, in one way, shape, form, fashion, or another was attacked by the power structure--law enforcement agencies, and so on.

**Dhoruba Bin Wahad** There were people walking around out there, like walking wounded, you know. It's just like, they've been in Vietnam , victims of gun battles and seizures and isolations and tortured, destroyed families, dead parents... but nobody knows about them and nobody really cares and that story is one that hasn't been told yet.

# 善用 Refine Your Search

The screenshot shows the JoVE search interface. At the top, the search bar contains 'Graphene' and the search button is labeled 'Search'. To the right of the search bar are several filter icons: B, N, i, M, BE, ENG, C, Bh, E, DB, SE. A 'Sign In' button is also visible. Below the search bar, it states 'Your search returned 19 results.' and 'Showing results 1-10'. A 'Refine your search:' section on the left includes filters for 'Containing Text' (with 'Graphene' entered and a 'GO' button), 'Filter by author or institution' (with a 'GO' button), and 'Filter by publication date' (with 'From: October, 2006' and 'Until: Today' fields). Below these are 'Filter by section' options: Biology (checked), Neuroscience (checked), Immunology and Infection (checked), and Medicine (checked). A 'CONTAINS' filter is active, showing 'Graphene'. The main results area displays a list of articles. The first article is 'Graphene Coatings for Biomedical Implants' by Ramakrishna Podila<sup>1,2</sup>, Thomas Moore<sup>3</sup>, Frank Alexis<sup>3</sup>, and Apparao Rao<sup>1,4</sup>. It includes a video thumbnail labeled 'JoVE 50276' and a description: 'Graphene offers potential as a coating material for biomedical implants. In this study we demonstrate a method for coating nitinol alloys with nanometer thick layers of graphene and determine how graphene may influence implant response.' The article is published March 1, 2013, and includes keywords: Biomedical Engineering, Bioengineering, Medicine, Biophysics, Materials Science, Physics, Pharmacology, Toxicology, Surgery, Chemistry and Materials (General), graphene, biomedical implants, surface modification, chemical vapor deposition, protein expression, confocal microscopy, Implants, stents, clinical. The second article is 'Development of a 3D Graphene Electrode Dielectrophoretic Device'.

- 0:05 Title
- 3:00 Anode Preparation and Substrate Setup
- 4:37 Ignition of the Arc Plasma and Post-synthesis Analysis and Characterization
- 6:30 Representative Single-walled Carbon Nanotube Results
- 8:08 Conclusion

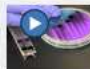

**Summary**

Anodic arc discharge is one of the most practical and efficient methods to synthesize various carbon nanostructures. To increase the arc controllability and flexibility, a non-uniform magnetic field was introduced to process the one-step synthesis of large-scale graphene flakes and high-purity single-walled carbon nanotubes.

# 邊看影片，邊讀文章和Protocol

The screenshot shows a video player interface. On the left, a dropdown menu is open under the 'Article' tab, listing various sections: Summary, Cite This Article, Abstract, Protocol, Discussion, Disclosures, Acknowledgements, Materials, and References. A red arrow points from the 'Summary' option to a highlighted section at the bottom of the page. The video player itself shows a close-up of a hand holding a red object near a yellow electrical device with a switch labeled 'OFF' and 'ON'. The video player includes a 'jove' logo and a table of contents on the right side. Below the video, there is a 'Summary' section with a blue header and text describing anodic arc discharge. Below the summary, there is a 'Date Published' field and a 'Keywords' field.

Time	Section
0:05	Title
3:00	Anode Preparation and Substrate Setup
4:37	Ignition of the Arc Plasma and Post-synthesis Analysis and Characterization
6:30	Representative Single-walled Carbon Nanotube Results
8:08	Conclusion

**Summary** 在網頁上讀文章

Anodic arc discharge is one of the most practical and efficient methods to synthesize various carbon nanostructures. To increase the arc controllability and flexibility, a non-uniform magnetic field was introduced to process the one-step synthesis of large-scale graphene flakes and high-purity single-walled carbon nanotubes.

**Date Published:** 2/02/2012, Issue 60; **doi:** 10.3791/3455

**Keywords:** Bioengineering, Issue 60, Arc discharge, magnetic control, single-walled carbon nanotubes, graphene

Li, J., Shashurin, A., Kundrapu, M., Keidar, M. Simultaneous Synthesis of Single-walled Carbon Nanotubes and Graphene in a Magnetically-enhanced Arc Plasma. *J. Vis. Exp.* (60), e3455, doi:10.3791/3455 (2012).

### Abstract

Carbon nanostructures such as single-walled carbon nanotubes (SWCNT) and graphene attract a deluge of interest of scholars nowadays due to their very promising application for molecular sensors, field effect transistor and super thin and flexible electronic devices<sup>1-4</sup>. Anodic arc discharge supported by the erosion of the anode material is one of the most practical and efficient methods, which can provide specific non-equilibrium processes and a high influx of carbon material to the developing structures at relatively higher temperature, and consequently the as-synthesized products have few structural defects and better crystallinity.

To further improve the controllability and flexibility of the synthesis of carbon nanostructures in arc discharge, magnetic fields can be applied during the synthesis process according to the strong magnetic responses of arc plasmas. It was demonstrated that the magnetically-enhanced arc discharge can increase the average length of SWCNT<sup>5</sup>, narrow the diameter distribution of metallic catalyst particles and carbon nanotubes<sup>6</sup>, and change the ratio of metallic and semiconducting carbon nanotubes<sup>7</sup>, as well as lead to graphene synthesis<sup>8</sup>.

# Ovid : Multimedia

The screenshot displays the Ovid Multimedia interface. At the top, the Ovid logo is on the left, and the Wolters Kluwer logo is on the right. Below the logo, there are navigation links: My Account, Ask A Librarian, Support & Training, Help, and Logoff. A blue navigation bar contains the following tabs: Search, Journals, Books, **Multimedia** (highlighted with a red box), My Workspace, and Primal Pictures. Below the navigation bar, there is a search area with a search box and a dropdown menu set to 'All'. To the right of the search area are options for Print, Email, Export, and Add to My Projects. Below the search area, there are options for Clear Selected, View (Citation, Grid), 10 Per Page, and a GO button. The main content area displays two search results. The first result is a video titled 'Benefits of Rituximab Combined With Intravenous Immunglobulin for Desensitization in Kidney Transplant Recipients. Introduction by Dr. Jordan and Dr. Vo on article published in 15th August 2014 issue'. The video thumbnail shows two people in a laboratory setting. Below the thumbnail, there is a 'Video' icon and a 'Download (150.00 MB)' button. The second result is a video titled 'HEALTH SYSTEM UNIVERSITY OF MICHIGAN. Introduction by Dr. Rojas-Pe?a and Dr. Punch on article published in 15th August 2014 issue'. The video thumbnail shows a graph. Below the thumbnail, there is a 'Video' icon and a 'Download (52.10 MB)' button. On the left side of the interface, there is a 'Quick Search' section and a 'Browse By' section. The 'Browse By' section has a dropdown menu set to '- Subject/Category' (highlighted with a red box). Below the dropdown, there is a list of subject categories with their respective counts: All Subject/Categories, Advanced Practice Nursing (3443), Allergy & Immunology (70446), Anatomy & Physiology (241), Anesthesiology (33178), Biochemistry Biophysics (32146), Cardiology (160934), Critical Care Medicine (5782), Critical Care (5034), Dermatology (70407), Dictionaries & Word References (753), Emergency Medicine & Trauma (21592), Endocrinology & Metabolism (59610), and Exercise Science (2878). On the right side of the interface, there are two columns of options for each search result: 'Ovid Full Text', 'Abstract Reference', 'Complete Reference', 'Library Holdings', 'Document Delivery', and a 'Find It@NTU' button.

### 空屋情人-人際疏離的虛實對應

By Steven on 週一, 04/13/2015 - 07:05

這部電影巧妙的運用現實生活和虛擬生活的模糊界線，來敘述一段相當獨特的愛情戀曲。導演金基德再度運用他獨特的愛情觀和人生觀，刻畫一段相當令人驚奇的愛情戀曲

### 帶我去遠方-每個人心中的天地

By Ruke on 週一, 03/23/2015 - 22:22

《帶我去遠方》是曾多次入圍金鐘獎的傅天余導演在2009年執導的首部劇情長片，可說是磨劍多年才出手；當時在本片擔任的男主角林柏宏，如今已成20代台灣演員中作品經歷最豐富的演員之一。

### 自由之心-黑奴人性的多面向

By Steven on 週一, 03/23/2015 - 06:51

這部美國電影以美國黑奴時期為題材，運用最寫實細膩的受害者角度，去檢視黑奴制度最為黑暗殘酷的一面。導演更運用成為黑奴前後的交叉對比，更加突顯出黑奴制度對民主社會而言的不人道。
