Resources for Kanjur & Tanjur Studies (rKTs) is dedicated to making research on Tibetan Buddhist canonical collections openly accessible. The website provides comprehensive tools for studying canonical literature in more than 100 Kanjurs, Tanjurs, Tantra collections, and other collections of canonical literature. These include online catalogues, searchable e-texts, and an extensive archive of images of Tibetan manuscripts as well as secondary sources. The various databases are compiled and maintained by the members of the **Tibetan Manuscript Project Vienna (TMPV)**, located at the Department of South Asian, Tibetan and Buddhist Studies, University of Vienna. For enquiries about individual collections or questions of a more general nature, please use the contact page.
