The screenshot displays the SLIM (System for Library Information Management) search interface. At the top left is the SLIM logo. The search bar contains the text "Preservation and Minimality in Loanword Adaptation". To the right of the search bar are icons for clearing the search, a dropdown menu set to "全部", and a search icon. Below the search bar are three filter dropdowns: "全部", "字詞不相鄰", and "紀錄中的任何地方".

Below the filters, there is a login prompt: "登入以獲取完整的結果, 並申請預約館藏" followed by a "登入" button and a "解除" button. The main content area shows "頁碼 1 48 檢索結果". On the left, there is a sidebar with "調整檢索結果", a checkbox for "本館 + 非本館資源", "排序規則: 相關性", and "僅顯示" with sub-options for "同儕評鑑期刊" and "線上資源".

The search results list shows one entry: "1. 期刊文獻 / 存在多個資源來源. 查看全部". The article title is "Preservation and Minimality in Loanword Adaptation" by "Paradis, Carole--Lacharité, Darlene" from "Journal of Linguistics, 1997 Sept, Vol.33(2), pp.379-430". There is a "同儕評鑑" icon and a highlighted "線上可獲得 >" button.

柯慶軒：不合理要求不會接受
 【本報記者 吳文輝報導】
 華航董事長柯慶軒昨上任就職開空服員首次罷工事件，他雖上週與空服員代表達成七項共識，引發地勤不滿。柯慶軒表示，這批罷工全從高層建設有利，這事件也引導企業管理與企業危機處理，高層人等一定調整，將提昇空服員罷工事件等級，航運表現正常，企業工會今天開會要求比較合理建議即轉專社表示，合理的要求會接受，不合理的要求不會接受。
 柯慶軒說，6月23日行政總裁林金亞亞對談華航空服員罷工問題，希望不吵，他去拜會當時的董事長洪仲雄與總經理張祥程，無奈的是，辦法從無。

The screenshot shows the EBSCOhost search interface. At the top, there is a navigation bar with links for "New Search", "Publications", "Subject Terms", "Cited References", and "More". On the right side of the navigation bar, there are links for "Sign In" and "Folder".

The main search area features the EBSCOhost logo on the left. To its right, the text "Searching: Academic Search Complete" is highlighted with a red box. Next to it is a link for "Choose Databases". Below this, there are three search input fields, each with a "Select a Field (o...)" dropdown menu. The first field is empty, and the second and third fields contain "AND" followed by a dropdown menu. To the right of the search fields are three green buttons: "Search", "Create Alert", and "Clear".

Below the search fields, there are links for "Basic Search", "Advanced Search", and "Search History".

The "Search Options" section is located below the search fields. It contains several sub-sections:

- Search Modes and Expanders**: This section includes "Search modes" with four radio button options: "Boolean/Phrase", "Find all my search terms", "Find any of my search terms", and "SmartText Searching" (with a "Hint" link). A blue callout bubble points to the "Find all my search terms" option with the text "預設的查詢模式".
- Apply related words**: This section has a checked checkbox.
- Also search within the full text of the**: This section has an unchecked checkbox.
- Limit your results**: This section includes "Image Quick View" and "Full Text" options, both with unchecked checkboxes.

A second blue callout bubble points to the "Advanced Search" link with the text "預設為進階查詢".

Confucianism, once thought to be a dead doctrine, has made [Download mp3](#) comeback during the past 20 years. Cited as a major force behind East Asia's economic "miracles," it is now finding a renewed following among mainland Chinese grown disillusioned with communism. Yet what exactly Confucianism means is hard to say. All the more reason, Jonathan **Spence** urges, to return to the man himself--and to the little we know about his life and words.

Across the centuries that have elapsed since he lived in northern China and lectured to a small group of followers on ethics and ritual, the ideas of **Confucius** have had a powerful resonance. [Soon after his death in 476 B.C.](#), a small number of these followers

Cliffhanger Days:
A Chinese Family in the Seventeenth Century

JONATHAN SPENCE

The man who wrote the cliffhanger days of my life was called Zhang Shi. He was born in 1697, in the prosperous city of Shanghai, near the river of central China. Zhang Shi was rich by the standards of his time (and perhaps by any standards in any time); he received a splendid education, and lived an extremely comfortable life, except for a few short periods when he chose to visit the slums of his daily world by taking frugal trips. Most of these were to nearby Hangzhou, celebrated across Chinese history for the scenic beauty of its West Lake, where his family had a lakeside villa, or to the Yangtze River city of Nanjing (previously China's capital). Now and again he ventured east the river to the commercial hub of Yangtze on the Grand Canal, or north again to the province of Shandong, where his father had a job for a while with a private family. In Shandong he made a point of visiting Confucius' temple near the Mount Tai and the home of Confucius, which had yielded vibrant fruit of over China but if he were to Beijing he left no description of it.

Religious Studies Review • VOLUME 40 • NUMBER 1 • MARCH 2014

CONFUCIUS IN EAST ASIA: CONFUCIANISM'S HISTORY IN CHINA, KOREA, JAPAN, AND VIET NAM. By Jeffrey L. Richey. *Key Issues in Asian Studies*, 13. Ann Arbor, MI: Association of Asian Studies, 2013. Pp. xvii + 99. \$20.06.

Like all volumes in the "Key Issues" series, this book traces central themes in Asian Studies and presents them in a clear, accessible way for nonspecialists (teachers, undergraduates, etc.) Richey draws on a wealth of scholarship to detail the rise and spread of the *rujia* ("Confucian tradition") from Warring States-era China through the rest of East Asia, clearly demonstrating the tradition's political and cultural institutionalization. His concluding chapter, "Confucianism in East Asia Today," is a particularly good overview of the continuing role of Confucianism as a bearer of "Asian values" in the contemporary world. It is far too easy to quibble over minor points in a book of this sort (I would have liked more details on Buddhist-Confucian interaction in Tang China), but those of us who teach this sort of material at the undergraduate level should deeply appreciate Richey's efforts. Certainly his "Suggestions for Further Reading," with its liberal inclusion of URLs alone, make this book an excellent resource. *Confucius in East Asia* is a good choice for East Asian history and culture classes, and I plan on using it when I next teach my university's "Introduction to Asian Studies" course—readers of *RSR* will, I hope, take that as my strong endorsement.

essay on a Sufi mystic in this volume, even the editor acknowledges as being "a bit anomalous," although it does provide some comparative perspective to the other four focused on Pentecostalism. The full volume is in bilingual format—the English from pp. 1–169 and the Japanese text through p. 398—and is available online at the Nanzan Institute website at <http://nirc.nanzan-u.ac.jp/en/publications/symposia/pentecostalism-and-shamanism-in-asia/>. Those interested in Korean and Japanese Pentecostalism will be grateful for this book.

SEVEN TAOIST MASTERS: A FOLK NOVEL OF CHINA. Translated by Eva Wong. Boston: Shambhala Publications, 1991. Pp. 208. \$16.95.

This is a delightful novel of late Ming times, fictionalizing the lives of Wang Che (1112–1170) and his seven primary disciples. The unknown author clearly intended to instruct as well as entertain: didactic monologues introduce the practice of self-cultivation according to Wang's Ch'ian-chen tradition. Through dedication, sacrifice, and meditative discipline, the characters overcome various failings and exemplify the process of moral and spiritual maturation. The modern reader can identify with the spiritual journeys of the characters, particularly Ch'iu Ch'ang-ch'un, Ma Tan-yang, and his wife Sun Pu-erh (the novel's true heroine). Scholars of Chinese culture will enjoy analyzing the interplay and creative tensions among the competing value-systems of late imperial China as focused in "real-life" situations. This book belongs in all libraries and will make a stimulating addition to courses in Asian religion.

HUSSCat

- 科技部人文社會科學研究中心委託本校圖書資訊學系建置
- 盤點國內人文社會科學資料庫,提供整合的資料庫名錄資訊,讓研究者掌握國內自建資料庫之概況
- 涵蓋20個人文社會領域
- 可依以學門或機構別**瀏覽**資料庫名單,或以特定主題及關鍵字進行資料庫名錄**檢索**

關於HUSSCat

人文社會科學領域已有豐富的數位資料庫供研究者取用與分析。然缺乏統一的資訊來源與使用管道，亦無法透過網頁搜尋引擎針對特定領域或主題進行搜尋。為此，「科技部人文社會科學研究中心」全面盤點國內人社領域資料庫，並建置「人文社會資料庫名錄」，以利研究者掌握相關研究資源、探索新的研究領域，並促成更多跨領域研究與合作。...[更多內容](#)

本名錄檢索的設置透過大專校院、學研機構與政府補助計畫等主要來源途徑，系統性盤點國內人文社會資料庫，繼而著錄資料庫性質、內容及功能等特性，共收錄20個人文社會學門領域之資料庫，提供使用者以學門或機構別瀏覽資料庫名單，或以特定主題及關鍵字進行資料庫名錄檢索。

由於人文社會研究觸及的議題廣泛，各資料庫收錄之資料類型多樣，格式不一，資料內容或形式可能是具研究價值之古籍、歷史文獻、檔案，乃至於調查資料。故HUSSCat之收錄範圍，以具備內容檢索與瀏覽功能，由國內學研、政府或民間機構，以及個人建置之資料庫為主，但特定領域之重要檔案或資料集，甚或是國外指標型資料庫則選擇性收錄。

HUSSCat目前可提供使用者以資料庫名稱、維護者、建立者，以及主題進行名錄檢索，使用者可藉由瀏覽功能檢視現有的相關資料庫名單，抑或是以特定主題檢索分屬不同學門或建置單位的相關資料庫，達成資料串連的可能。惟HUSSCat並未提供可同步連結至各資料庫，進行特定主題內容之整合性檢索功能，如欲確認各資料庫之文本內容，使用者仍須連結至個別資料庫，依據該資料庫相關規範進行內容檢索或檔案下載。

In 1918, Zsigmondy and Bachmann presented a new method to induce phase separation of a homogeneous polymeric solution from a vapor phase. The so-called vapor-induced phase separation (VIPS) was born. In a century, the body of knowledge on polymer membranes and hydrogels prepared by VIPS has grown importantly, which suggests the need for a critical review. Slowness of mass transfers involved in VIPS, attributed to the resistance at the gaseous phase/liquid phase interface, permits reaching better control of polymer membrane formation than with the popular wet-immersion process. As a result, a broad variety of morphologies can be obtained and well controlled. The control of testing conditions and formulation parameters also permits tuning and tailoring morphologies, which arises in various membranes properties, and led scientists to investigate the possibility of forecasting mass transfers in VIPS. Therefore, at the end of the twentieth century, first models were developed to describe this process, and validated by comparing simulated data to experimental results. Afterwards, studies demonstrated the possibility of predicting membrane morphologies from the knowledge of operating conditions. This article aims at reviewing the work done so far reporting this process to prepare polymer membranes and hydrogels. The experimental set-ups will be introduced as well as the different polymer/solvent/nonsolvent and polymer/additive(s)/solvent/nonsolvent systems used and the morphologies obtained. The effect of testing conditions and formulation parameters on the structure of the matrices will be subsequently discussed. Close attention will be given to the fundamental theory of VIPS before moving onto the potential applications of such polymer matrices.

摘要

In 1918, Zsigmondy and Bachmann presented a new method to induce phase separation of a homogeneous polymeric solution from a vapor phase. The so-called vapor-induced phase separation (VIPS) was born. In a century, the body of knowledge on polymer membranes and hydrogels prepared by VIPS has grown importantly, which suggests the need for a critical review. Slowness of mass transfers involved in VIPS, attributed to the resistance at the gaseous phase/liquid phase interface, permits reaching better control of polymer membrane formation than with the popular wet-immersion process. As a result, a broad variety of morphologies can be obtained and well controlled. The control of testing conditions and formulation parameters also permits tuning and tailoring morphologies, which arises in various membranes properties, and led scientists to investigate the possibility of forecasting mass transfers in VIPS. Therefore, at the end of the twentieth century, first models were developed to describe this process, and validated by comparing simulated data to experimental results. Afterwards, studies demonstrated the possibility of predicting membrane morphologies from the knowledge of operating conditions. This article aims at reviewing the work done so far reporting this process to prepare polymer membranes and hydrogels. The experimental set-ups will be introduced as well as the different polymer/solvent/nonsolvent and polymer/additive(s)/solvent/nonsolvent systems used and the morphologies obtained. The effect of testing conditions and formulation parameters on the structure of the matrices will be subsequently discussed. Close attention will be given to the fundamental theory of VIPS before moving onto the potential applications of such polymer matrices.
