ORCID Requirement Growing for Grants from Top Sponsors

In step with numerous national governments and funding agencies, the Wellcome Trust and the Austrian Science Fund (starting 2016) require applicants to provide an Open Researcher and Contributor ID (ORCID) number when submitting funding applications. These numbers are persistent digital identifiers ascribed to individuals that provide "a transparent method of linking research activities and outputs".

Other foundation and government funders that have integrated ORCID identifiers into their grant submission systems now include Autism Speaks, the U.S. Department of Energy, the U.S. Food and Drug Administration, the U.S. National Institutes of Health, the Brazilian Fundação para a Ciência e a Tecnologia, the Japan Science and Technology Agency, Qatar National Research Foundation, and the UK National Institute for Health Research.
