What is SAGE Research Methods?

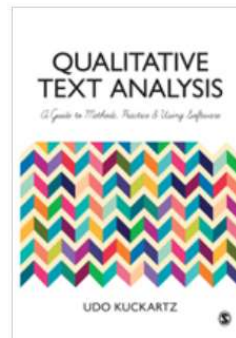

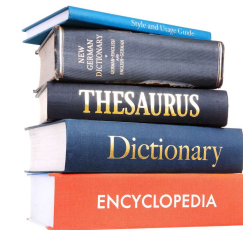

SAGE Research Methods supports research at all levels by providing material to guide users through every step of the research process:
from **writing a good research question** and **conducting your literature review**, choosing **the best methods** and **analysing your data**, to **writing up** your results and thinking about publication.

How Do I Write My Introduction and Conclusion?	+

SAGE path >>

- With so many journal options to choose from in medicine and life sciences, sometimes it can be hard to decide the best fit for your manuscript. SAGE Path, a **free-of-charge service** for authors, is here to address this.
- SAGE Path quickly provides expert advice on the SAGE journal that is the best fit for your manuscript based on your preferences and a SAGE Managing Editor's knowledge of the relevant discipline and SAGE Path-participating journals in our portfolio.

Follow these Steps to the Right Journal!

1: Create an Account, Log In, and go to Author Center

2: Submit your manuscript with up to 5 journal selections

3: We will first check your selections to ensure they are appropriate

4: We will send a pre-submission inquiry to the relevant selected journals

5: Manuscript transferred to journal if Editor approves (or alternate offered)
